PROFILE SNAPSHOT

- **Tech Lead & SaaS Solution Architect** with **13+ years** of expertise in designing and engineering high-availability SaaS platforms, enterprise marketplace integrations, and scalable cloud applications.
- Demonstrated success leading end-to-end SDLC: architectural blueprinting, project estimation, sprint execution, code governance, high-level client communication, and cross-functional team delivery.
- Directly leads, mentors, and scales engineering teams of **8+ developers** through technical design reviews, feature decomposition, hands-on backend pairing, and technical blocker elimination.
- Early adopter of **AI-assisted engineering practices**, leveraging Claude, Claude Skills, Model Context Protocol (MCP), ChatGPT, Cursor, and agentic workflows to drive team velocity across requirements, implementation, code reviews, and automated unit testing.

KEY PROJECTS & ENGINEERING IMPACT

Multi-Channel eCommerce SaaS Platform – Tech Lead

- **Architecture & Scale:** Architected a centralized multi-tenant platform supporting **5+ enterprise brands**, handling **100K+ SKUs**, and daily processing **2K+ live orders** with high availability and reliability.
- **Marketplace Integrations:** Engineered robust integration pipelines for Amazon SP-API, Amazon MWS, Amazon Advertising API, and eBay API covering inventory synchronization, automated order routing, fulfillment, dynamic repricing, and catalog management.
- **High-Volume Data Infrastructure:** Built asynchronous queue-based background processing (Laravel Queues, Redis, SQS) and optimized PostgreSQL database partitioning for seamless handling of millions of webhooks and high-throughput marketplace API payloads.
- **System Performance:** Reduced sync latencies across external marketplaces by implementing intelligent caching layers and rate-limit aware background job dispatchers.

Real Estate CRM Platform – Tech Lead

- **Platform Scope & Ecosystem:** Led technical delivery of a multi-tenant CRM serving **20+ brokerages/customers** with MLS feed synchronization, lead management pipelines, deal workflows, and automated communication tools.
- **Third-Party Suite Integration:** Built seamless two-way integrations with Twilio (SMS/Calls), SendGrid, Mailchimp, Google Workspace, Outlook, Elasticsearch, and Single Sign-On (SSO); synchronized user profiles and communication logs across 3 client platforms.
- **Agentic AI Lead Scoring:** Designed and integrated an innovative agentic AI lead re-ranking engine leveraging user interaction signals, engagement frequency, and behavioral intent to prioritize sales team outreach.

TECHNICAL EXPERTISE

- **Leadership & Delivery:** Technical Leadership, Solution Architecture, Project Estimation, Sprint Planning, Stakeholder & Client Management, Engineering Mentorship, Code Quality Governance, Delivery Ownership.
- **Backend & Frameworks:** Enterprise PHP, Laravel (10/11/12), CodeIgniter, Node.js, Python, Microservices Architecture, Multi-Tenant SaaS Design, RESTful & GraphQL APIs.
- **Cloud, Data & DevOps:** AWS (EC2, S3, RDS, Lambda, SQS, CloudWatch), MySQL, PostgreSQL, Redis Caching, Redshift, Elasticsearch, Docker, GitLab CI/CD, Jenkins pipelines.
- **AI-Assisted Engineering:** Claude, Cursor, ChatGPT, Claude Skills, MCP (Model Context Protocol) Server/Tools, Agentic Workflows, AI Prompt Engineering, Code Generation & Automation.

DETAILED PROFESSIONAL EXPERIENCE

TOPS Infosolutions Pvt. Ltd. — Tech Lead

Jan 2022 – Present

- Direct all architectural decisions, technology selections, delivery roadmaps, and sprint executions across multi-tenant SaaS and e-commerce marketplace accounts.
- Partner directly with client executives, product owners, QA managers, and BA teams to translate business vision into concrete technical architecture, database schemas, and API specifications.
- Spearhead the adoption of AI-assisted engineering tools (Claude, Claude Skills, MCP, Jira AI, GitLab workflows) across 8+ developers, increasing team development velocity and code coverage.
- Manage production deployments, oversee cloud infrastructure cost-optimization on AWS services, establish strict code review standards, and conduct ongoing technical pairing sessions.

TOPS Infosolutions Pvt. Ltd. — Senior Software Engineer

May 2018 – Jan 2022

- Architected and developed enterprise web applications using PHP (Laravel, CodeIgniter), Node.js, REST APIs, MySQL, and AWS cloud infrastructure.
- Engineered high-scale Amazon MWS, Amazon Advertising API, and Google Cloud API integrations supporting revenue-critical e-commerce operations.
- Drove database schema normalization, query performance tuning, automated deployment pipelines, direct technical client communication, and junior developer mentoring.

C-Metric Solutions Pvt. Ltd. — Senior Software Engineer

2016 – 2018

- Developed high-performance backend modules and RESTful APIs for enterprise web platforms.
- Led architectural refactoring of legacy codebases, optimized complex relational queries, and implemented automated unit testing.

Brainvire Infotech Pvt. Ltd. — Software Engineer

2012 – 2016

- Built dynamic e-commerce platforms and core business web applications using modern PHP frameworks in Agile environments.
- Delivered customized third-party payment gateway integrations, backend feature modules, bug fixing, and continuous release support.

Virtue InfoTech Pvt. Ltd. — Junior Software Developer

2012

- Executed PHP web application development, module customization, cross-browser debugging, and application maintenance.
